

DAY ONE

Sialendoscopy

8:00	Welcome, Introduction Hočevar (head of the department), As Prof Aničin
8:15	Diagnostic and interventional sialendoscopy – an evolving paradigm in the management of obstructive salivary diseases – Prof Marchal
8:45	Starting a regional sialendoscopic centre - Ljubljana experience. Urbančič
9:00	Prerequisite knowledge at a glance: anatomy and pathology; office examination and radiological investigation before performing a sialendoscopy Aničin
9:15	Instruments, equipment, visualization, ergonomics, use of additional equipment (stone drills, laser) Šifrer
9:30	Coffe Break
9:45	Live surgery session I (presumably a pure sialendoscopic procedure for an obstructive salivary disorder) – Marchal Moderator Aničin Case session (video) – »fine cases« / discussion I
11:30	Diagnostic and interventional sialendoscopy for stones, stenosis and other obstructive pathologies a. 11:30 Stones: aetiology, endoscopic classification, sialendoscopic lithotripsy and retrieval; Aničin b. 11:50 Strictures of salivary ducts: endoscopic evaluation, dilatation and stenting; Marchal c. 12:10 »Other« obstructive salivary pathologies; Urbančič
12:30	Lunch Break
13:30	Live Surgery session II (sialendoscopy assisted combined approach stone removal); Aničin Moderator: Marchal Case session (video) II (pitfalls - complications and prevention) Q / A
15:30	Sialendoscopy assisted combined approach techniques 15:30 Combined approach for Stensens duct pathology; Marchal 15:50 Combined approach for Wharton's duct pathology; Aničin 16:10 Stenting and combined approach techniques: Marchal
16:30	Break
17:30	International Salivary Gland Society and ESTC; Marchal
19:00	Dinner

DAY TWO

Open salivary gland surgery

8:00	Welcome, Introduction; As Urbančič
8:15	Surgical anatomy of salivary glands and the salivary gland mass workup; Paučič
8:30	Surgical approach to benign salivary gland tumours; Prof Prgomet
8:45	Parotid malignancies: extent of surgery, neck dissection; Prof Jovič
9:00	Facial nerve reconstruction, lateral skull base; Prof Stanković
9:15	Intraoperative facial nerve monitoring, instruments and equipment; Prof Battelino
9:30	Coffe Break
9:45	Live surgery session I (parotid surgery, superficial lobe parotidectomy); Grošelj Moderator: Prgomet
12:00	Surgery of malignant salivary gland tumours (Panel, Q /A) Moderator: Aničin Marchal, Prgomet, Jovič, Stanković
12:30	Lunch break
14:00	Live Surgery session II (extracapsular resection of a parotid gland tumour); Aničin Moderator: Marchal
15:30	Benign salivary gland tumours –surgery (Panel, Q /A) Moderator: Grošelj
16:30	Break
17:00	Complications and late sequelae of open parotid surgery (Panel, Q /A) Moderator: Jovič, Grošelj, Stanković, Trček, Pukl
18:00	Certificate Hand Out
19:00	Faculty dinner

DAY THREE

Hands on course

7:45	Welcome, Introduction; As Grošelj
8:00	elevation of the SMAS and identification of the crucial landmarks for the exposition of the facial nerve –anterograde and retrograde
9:45	Coffe Break
10:00	Surgery of the parotid gland: step by step elevation of the superficial parotid lobe. Removal of the deep lobe.
11:45	Coffe Break
12:00	Submandibular gland resection: step by step procedure with an exposition of the relevant nerves. Study of the transoral approach
13:45	Closing remarks, the take-home message
14:00	Lunch
15:00	Aditional hand-on session
16:00	End of day 3
